LEARNING MANAGEMENT SYSTEM

ABOUT LEARNING MANAGEMENT SYSTEM

A **Learning Management System** (**LMS**) is a software application or Web-based technology used to plan, implement, and assess a specific **learning** process. Typically, a **learning management system** provides an instructor with a way to create and deliver content, monitor student participation, and assess student performance.

LMS is an online system or software which is used to plan, execute, and assess a specific learning process. In simple words, LMS is software used in e-Learning programs and which helps in administration, documentation, tracking, and recording. Learning Management Systems are used to maintain online collaboration over the internet. Colleges and companies use them to deliver online training as well as for maintaining employee records.

OBJECTIVE

The main objective of Learning Management Systems is to enhance the learning process. A Learning Management System not only delivers content, but also handles registering courses, course administration, skill gap analysis, tracking, and reporting.

WHAT IS TENO?

Teno is a Free to use mobile app to facilitate communication between the College and students/parents. As our College uses Teno mobile Application as LMS the following are the advantages of teno application.

WHAT ARE THE ADVANTAGES OF USING TENO?

Teno is a Free to use mobile application to facilitate communication between the College and students/parents.

1. 1 way communication
2. Create 2 way communication groups at your discretion
3. Track how many parents actually read your message.
4. Resend notification to those who haven't with one click
5. Monitor the overall communication with Admin Dashboard
6. Send attachments with one click
7. Pre-Schedule messages and be relaxed

HOW IS IT BETTER THAN COLLEGE WEBSITE?

It is a super value addition to you posting things on your website. You can never be sure of what time parents log into web & read something that you posted. You cannot be sure if they actually received what you wanted when it was needed or not. Teno is instant, real-time & right in the hands & pockets of parents.

WHAT ARE ITS ADVANTAGES OVER SMS?

While SMS costs you money, teno is free.

On SMS you can send just 160 characters of text & not pictures/pdf files/ppt etc. when needed.

Another disadvantage of SMS is you cannot know how many people actually read the message, but with teno you can do all that.

HOW IS IT BETTER THAN WHATSAPP?

On Whatsapp everyone can see each other's numbers & there is no data security.

As a College you have to manage many groups.

Admin doesn't know what's happening in those groups.

Parents clutter it with unwanted messages.

Teno is streamlined and solves all these issues.

EASE OF COMMUNICATION WITH MOBILE APP

Teno App is free for parents and teachers, and it is very user-friendly. The app is loaded with features such as sending pictures & videos. With it, teachers can interact with parents on one to one basis. They are also equipped to raise an emergency alarm and can send voice messages as well.

Using Teno App, the College can send the notifications for the fee in a very natural manner can pay the same from the app without any hassle. So, the technology has made the life of teachers and parents easier and that too without any costs!

EASE OF PREPARING LECTURE

With the help of the College software, teachers can develop the lecture even when they are outside the College. They can create the lecture which can be stored in a central location. Once the learning material is prepared, it can be reused many times as it just has to be updated with the latest changes. If there are any other subject related developments or curriculum requirements they can be accommodated as well on a regular basis. The student usually has unlimited access to these lecture; they can prepare for the class well in advance which will help them in a better understanding of the lecture.

EASE OF TRACKING ASSIGNMENTS

With the help of College software, teachers can quickly allocate assignments to the students. Once the completed assignments are submitted, they can be tracked easily as there is hardly any paperwork involved. The monitoring of the student's performance becomes easy as well as all the details are stored and can be viewed by the teachers as and when needed. With the help of Teno App, the parents can get real-time information about the development of their kids.
