Introduction

Being a research based independent institute, Degree college of Physical Education research centre attaches immense importance and gives utmost concentration in presenting its products in a more professional way. With this aim, Research centre of Degree college of Physical education shree H.V.P.Mandals Amravati conducted a workshop on SPSS for its employees to not only enhance their skills but also to able the product presentable on the national and international Level. These sort workshop are the part of Research centre series of capacity building for its employees .

SPSS is a great tool of data handling and analysis in social sciences research. Other tools such as excel and other database are also used for the same purpose but SPSS provides an easy access to descriptive statistics and frequencies (Responses), that gives a wider variety of charts & graphs, better and more flexible pivot tables and provides a full set of statistical tests. Using the "Split" function in SPSS, it is relatively easy to create tables and charts for subsets without doing any extra work.

Basic features of SPSS

- (I) It is easy to learn and use
- (II) It includes a full range of data management system and editing tools
- (III) It provides in-depth statistical capabilities
- (IV) It offers complete plotting, reporting and presentation features.

Resource Persons
